Dull Colorfulness vs Happy, Hysterical White

Most people liked colorfulness and our **International Trash Hotel**

A collage of various vintage wallpaper patterns surrounds a central white panel with handwritten text. The patterns include: a dark red diamond grid, a yellow floral damask, an orange background with blue grapes and birds, a light green floral damask, a cream background with yellow and green floral motifs, a red background with stylized owls, a red and white floral damask, a yellow and orange floral damask, a blue and white floral damask, a yellow background with large yellow flowers, a red and white floral damask, a black background with white butterflies, an orange and white geometric pattern, a green and brown floral damask, and a green floral damask.

Yes, we dream!

trash

- **Thank you, all of you!** It was an experience again to create an Exhibition like this, but without you and your participation it would not have been anything. It wouldn't have become an **International Trash Hotel**
- It was really nice to see how hard you all worked, to meet the dead-line of having the rooms ready in time.
- The task was challenging, for all parties. You had to imagine a space, a setting and think of what trash actually stood for. You all did a great job!
- This could be seen by the reactions we had from people visiting the exhibition. Our International Trash Hotel was the most popular stand at Habitare. We can all be proud of that.
- Next year will bring something new again. What is not defined to 100% but you will be kept informed. You can also visit www.trashdesign.fi to find more info about this year and maybe some hints about the future.
- So, thank you, once again!
